

Build your Dream **POSTGRADUATE** @ Built Environment

MASTER OF PROJECT MANAGEMENT

This program intends to create professional Project Managers that are knowledgeable and competent, possess ethics and social responsibility, as well as are aware of the need to promote sustainability. Students are trained with the skills to handle problems, challenges and a project management perspective in a global context. Among others, disciplines stressed in this program include Principles of Project Management, Project Management Professional Development, Project Investment and Financial Management, Organisational and Strategic Management, and also Value and Risk Management. The multi-disciplinary approach in the program also allows exploration of other disciplines that are relevant to project management including Health and Safety Management, Information and Telecommunication Management, Legal Issues in Project Management as well as Assets and Facilities Management. The component that is given emphasis in this program is research in selected areas specific to project management, so that students are trained to become effective analyzers and develop skills towards problem solving using scientific approach.
