SYNOPSIS

Bills of quantities (BQ) is a document prepared by the Quantity Surveyor to define the quality and quantity of works required to be carried out by the main contractor to complete a project. In this context, the BQ for landscaping and its detailed descriptions that form part of the scope of work for the landscaping project will be discussed.

This course includes a workshop that will guide participants to prepare a comprehensive BQ on landscaping works and its maintenance.

- Landscaping can help soften spaces between buildings, provide a route for people, provide space for gardening, and help in improving environmental quality
- Popular types of plants that help building ecology and create gardens that enhance the surrounding environment
- Landscape design that incorporates hardscape and softscape elements is the beginning of creating an impressive and inspiring space
